#### **Division Description**

The Division of Building Safety administers five bureaus and houses seven boards. Funding for the Building, Electrical, Plumbing, Public Works Contractor Licensing and Heating, Ventilation and Air Conditioning (HVAC) Bureaus is provided through fees for licenses, permits, plan reviews, and apprentice/trainee registrations. Other programs operated by the division include the Industrial and Logging Safety Programs, funded by transfers from the Idaho Industrial Commission, and an energy code program funded through grant monies from the U.S. Department of Energy and the Northwest Energy Efficiency Alliance.

The Building Bureau administers numerous building code regulatory programs involving the construction and safety of state facilities, schools, prefabricated modular structures, and mobile or manufactured homes. The bureau also provides for the rehabilitation of older mobile homes and licenses the manufactured home industry. Plan reviews and inspections are performed to determine compliance with adopted building, accessibility, mechanical, fuel gas, energy conservation, and HUD construction safety codes or standards.

The Electrical Bureau licenses all electricians and contractors, registers apprentices, issues permits, and reviews plans and inspects all electrical installations to ensure code compliance.

The Plumbing Bureau licenses plumbers and contractors, registers apprentices, issues permits, conducts inspections, and reviews plans.

The Heating, Ventilation & Air Conditioning Bureau establishes qualifications and issues certificates of competency for HVAC installers and conducts inspections of HVAC systems.

The Public Works Contractor Licensing Bureau licenses all contractors and construction managers performing public works construction.

The Industrial Safety Program conducts inspections of state facilities and school districts to ensure safe working conditions and manages the statewide Boiler Safety and Elevator Safety Programs. The Elevator Safety Program is funded through certification and inspection fees. The Logging Safety Program seeks to reduce the frequency and severity of accidents in the logging industry by conducting first aid classes and on-the-job safety meetings for loggers, providing safety training for management, and inspecting logging operations.

#### Benefit Costs

Reflects \$2,075 per position or a 29% increase in employer-paid health insurance premiums from \$7,125 to \$9,200 per year. This increase is artificially inflated since the rates have been frozen for the last two years, with increases being covered from reserves.

Agency Request

351.300

1.300

352.600

The Governor recommends funding the employer increase in health insurance, and does not remove the funding for their PERSI rate increase that was included in the request. Recently, the PERSI Board voted not to increase the contribution rate for the upcoming fiscal year. In addition, for this agency the Governor recommends that the Division of Human Resources (DHR) fee be reduced by 35% for classified positions, from 0.615% of gross salary to 0.4%, because it has been granted delegated authority by DHR.

Governor's Recommendation

0.00

340.500

340,800

#### **Inflationary Adjustments**

This inflationary adjustment is arrived at by subtracting one-time funding and statewide allocation plan costs from the base and calculating a customized increase for all remaining operating costs. This reflects a 2.91% increase over the base operating expenditures, and a 7% increase for contractual agreements.

Agency Request

0.00

153,600

1,600

155,200

Inflationary increases are provided only for contractual obligations such as leased space costs and fuel costs. Other inflationary requests are not recommended.

72,500

#### Replacement Items

Replacement items include nine vehicles (\$25,000 each/ \$225,000 total) for the Electrical Bureau, four vehicles (\$25,000 each/ \$100,000 total) for the Building bureau, eight vehicles for the Plumbing bureau (\$25,000 each/ \$200,000 total), one vehicle for the PW Bureau \$25,000, one vehicle for HVAC Bureau \$25,000, one vehicle for Industrial Safety \$25,000, and one vehicle for Logging \$25,000. A grand total of 25 vehicles for \$625,000 for the entire division is requested.

Replacement items also include thirty-three staff notebooks (\$4,500 each/ \$148,500 total), 18 desktop computers (\$1,500 each/\$27,000 total) miscellaneous switches, 10 (\$5,800 each/\$58,000 total), one router \$28,700, and one voice mail server for \$17,000.

#### 1. Contract Inspector Program

The FY 2007 appropriation for the Division of Building Safety included intent language directing the division to research the feasibility of contracting inspection-related services. The division subsequently sent a delegation to visit Minnesota to review the state's use of independent contactors to provide inspection services and determined that use of contract inspectors in Idaho could potentially offer cost-savings through improved efficiency and flexibility in response to changing demand. \$250,000 was moved from personnel costs to operating expenditures to accommodate such a program.

The Administrator researched the possibility of directly contracting with field inspectors. Due to liability, insurance, and employment considerations, it has been determined that instituting such a program is feasible only by contracting with specific companies that specialize in inspections. The division will continue to search for companies that provide such services, but for the time being, the division is requesting to return \$250,000 back from operating expenditures to personnel costs. Personnel costs will be used to continue inspections for plumbing, electrical, and heating ventilation and air conditioning (HVAC) by state employees.

#### 2. PC for Board positions

The Division of Building Safety (DBS) is served by seven citizen advisory boards. Each board is established by Idaho Code and mandated to meet on a semi-annual basis. Many of these boards meet more often than twice per year. This request allows each board to hold quarterly meetings and pay board members for their time from group position salary and benefits [ongoing].

|---------------------------|------|---|--------|---|--------|
| Governor's Recommendation | 0.00 | 0 | 14,100 | 0 | 14,100 |

#### 3. Replace Federal Grant

This request is to increase 0.52 FTP for the dedicated fund along with \$80,000 ongoing funding. This decision unit is being requested because the agency would like to continue a program titled the Energy Audit Program. This program was originally funded by the federal government but lost funding. The Energy Audit Program is offered to public agencies and has proven to bring about significant cost savings to those jurisdictions choosing to participate [ongoing].
